

E WAY BILL AND VEHICLE TRACKING MODULE

E Way Bill Officers' Mobile Application

MODULE FOR EWB & VEHICLE TRACKING

Additional features are added to the same application that is currently being used by the officers. The officers have to download the latest apk to get these features

Features related to EWB and Vehicle tracking are available under this Icon

Currently four features are available

- I. Vehicles passing through selected toll plazas, direction and time can be tracked in near real time
- Information on last 10 times a given vehicle passing through some toll plazas
- E Way Bills carried by a vehicle and its passage details at toll plazas for given period of time
- EWB, Vehicle details and their passage details for given EWB no.

1. REAL TIME TRACKING OF EWB & VEHICLE AT THE FIELD

Officer has to register for the tolls and the directions such that the vehicles passing through these tolls come towards the place where the officer is currently positioned. Officer can register for multiple tolls and directions such that vehicles passing through all of them are coming towards the officer's current location

After registering the required tolls, direction and setting the time, this button has to be clicked to get the vehicle passage details

Filter option

The list shows the vehicles passing through the selected toll plazas. The EWBs having assessable amount greater than certain amount are considered. If no EWBs are found for a vehicle, that is indicated as 'No EwayBill'. If EWB found, it is indicated as either carrying critical commodity or having watch listed GSTIN or watch listed vehicle number. This list can be filtered based on these criteria using the filter options in the top right corner.

The list of passage details can be filtered based on the criteria using the filter option
